CSEA membership dues/financial core fee deductions are based upon annual salary as of January 1. Overtime and bonuses are not to be included in an employee's annualized salary. Employees who receive a raise, increment or longevity pay that is effective after January 1, 2025 would remain at the same membership dues/ financial core fee level for calendar year 2025 they were paying prior to their raise, increment or longevity pay. New employees would pay membership dues/ financial core fees based on their annualized salary at date of hire. However, employees that have a job change (i.e. frequency, title, salary decrease) may need to be adjusted.

*Deductions taken over 10 months - 20, 21 & 22 pay periods - represent dues/core fee deductions for the full year. No additional deductions should be made.
